# What is the Digital Assessment Library for Schools (DALs)?

It's pretty simple. The **Digital Assessment Library for Schools** is an annual site license that provides the entire district access to a library of more than 40 assessments used by school psychologists, speech language pathologists, education diagnosticians, special education teachers, occupational therapists, physical therapists and more. For a fixed, annual price based on the district's total reported number of Individualized Education Programs\* (IEPs), your district will have a license to use Pearson's Digital Assessment Library and our systems for administration, scoring, reporting, and data storage for any individualized evaluations within your school district...IEP in place or not.

---

## What does “unlimited” get your district?

Unlimited use allows your district to answer all of your referral questions, with whatever tests you need, **as many times** as you need to, using **as many examiners** as you need to do it — **all for the same simple price.**

### Your district will have access to:

- An ever-growing digital library of over 40 of our most popular assessments
- Unlimited access and use of Q-interactive®
- Unlimited access and use of Q-global®
- Training for Q-interactive and Q-global
- Support personalized to your needs in your district

*\*Reported annually by the district to the state or Office of Special Education and Rehabilitative Services (OSERS).*

# This all sounds great “on paper”, but what are the real-world benefits?

Time is perhaps the most precious commodity these days, and we completely understand that making any big changes to how your district does things needs to be justified by some major benefits for everyone involved. The Digital Assessment Library for Schools came to be for this very reason. We listened to your pain points and found a way to solve as many of them as we could.

## **Students in DALs districts are enjoying the benefits of:**

- ✓ Higher engagement during evaluations
- ✓ Reduced errors in scoring
- ✓ More accurate evaluations, appropriate interventions, and *improved outcomes*

---

## **Examiners in DALs districts are enjoying the benefits of:**

- ✓ Measurable time savings
- ✓ 24-hour access to the materials they need
- ✓ Greater test flexibility
- ✓ Less back pain carting testing materials from place to place
- ✓ More space in their car

---

## **Administrators in DALs districts are enjoying the benefits of:**

- ✓ Equal access to assessments across all schools
- ✓ Greater staff productivity
- ✓ Less waste and improved inventory management (no more hoarding!)
- ✓ Predictable costs and more level spending from year-to-year with no fear of running out of materials in the Spring or money to buy them

---

## **Everyone in DALs districts is enjoying the benefits of:**

- ✓ The ability to administer tests remotely or while socially distanced during face-to-face evaluations

# Which assessments are included?

The way we see it, it's not really a value if there's nothing your district would actually use. That's why we packed our Digital Assessment Library shelves with the tests that the people in your district use every single day!

# The two Qs

## What are they, and how will they make our lives easier?

We've given you a lot of information so far, but it all comes down to the technology behind the library — Q-interactive and Q-global. While both are helpful, innovative, and revolutionary, they each serve their own purpose. Let's dig in...

### What *is* Q-interactive and what makes it so great?

**Q-interactive®** is an intuitive, portable system that uses two iPad® devices connected through technology within the hardware to administer "interactive" assessments such as WISC®-V, CELF®-5, and KTEA™-3 in a 1:1 environment. This means that no internet connection is required for the administration of assessments.

Because almost everything you need to administer the included tests is stored on the two iPad devices, the dizzying array of kits and booklets that once took up space in offices, vehicle trunks, and storage rooms is now a thing of the past.

Q-interactive has been used in schools for over 10 years. Customer feedback over that decade has directly influenced the new features and enhancements in the most recent Assess app, including an improved user Interface and enhanced scoring features.

One of the greatest benefits that we've heard from our users is that their assessments are now more targeted than ever. The immediate feedback that Q-interactive provides once a subtest is complete helps deliver a faster and more accurate read on where the student is and how they are progressing at any given time.

Q-interactive also allows examiners to adjust an individual battery in real time — as the student is taking it!

**Check out all the new bells and whistles in the Assess app!**

*For more information on Single sign-on integration visit our website >*

**Q-global** is a web-based platform for scoring and reporting as well as the administration of many assessments that are often self-administered and un-proctored, like a questionnaire or rating scale. These measures include assessments like the BASC-3, BYI-2, Vineland-3, and the Brown Executive Functioning/Attention Scales.

A link can be utilized to send to teachers or parents asking them to complete these tests, without having to personally put them in the mail or send them home with the student.

In addition, this platform houses the Resource Library for many digital manuals and stimulus books that can be utilized to administer the test in a one-on-one setting or via telepractice.

### **Q-global allows your district to:**

- Generate scores and reports on any internet-connected device, even for assessments that are administered using paper forms
- **Email a secure link to teachers, parents, or caregivers** for convenient completion of assessments on their own device
- **Print select rating scales** when digital administration is not an option
- **Access tests manuals** from school or home

*For more information on Single sign-on integration visit our website >*

### **How does your district learn to use these digital systems?**

With Q-interactive and Q-global, we offer extensive training to ensure your staff has the tools they need to support their students.

- Team support
- Webinars
- Video tutorials
- Resource library
- Help directory
- On-site training\*

*\*May incur additional costs.*

# But wait — there's DALSt!

Get all the great perks of our digital library — PLUS so much more! DALSt subscribers can expand their benefits to include easy, unlimited access to many of the paper-and-pencil assessments for which digital administration is not an option.

## Add Digital Assessment Library for Schools PLUS (DALSt+) and get:

- Unlimited use of protocols and response booklets for 20+ non-digital tests
- **Access to all available digital manuals** and stimulus books through the Q-global Resource Library
- **FREE shipping and handling** for covered print materials
- **65% off on any kit purchases** for all DALSt and DALSt+ tests

## What's included:

	Print Materials Included with DALSt+			Q-global Digital Supplements Included with DALSt Complete

## Conners 4 now available to DALS COMPLETE customers through the MHS Education library.

Your district can now conveniently administer, score and report the Conners 4 within your DALS Q-global account by adding the MHS Education Library when purchasing DALSCOMPLETE\*.

Assessment	Q-interactive		Q-global					Available in Spanish
	Admin., Scoring and Manual	Paper Response Booklet Included	Admin. OSA/ROSA	Scoring	Digital Stimulus Book <sup>1</sup>	Digital Manual Available	Printable Forms/ Resources	
MHS EDUCATION LIBRARY								
Conners 4			✓	✓	✓	✓	✓	✓

\*MHS Education Library is only available to be purchased in conjunction with DALSCOMPLETE.

# What does it cost?

The best part about the Digital Assessment Library for Schools is the simple, annual price. Your district's cost is based on the most recent number of IEPs reported to the Office of Special Education and Rehabilitative Services. Districts with 400 IEPs or less pay a flat price based on that number and larger districts pay a price based on the reported number of IEPs multiplied by a cost per IEP.

When you purchase the Digital Assessment Library for Schools you have the option of including DALs+ to expand your library. DALs+ pricing follows the same format with different price points. The grid below will help you determine your district's pricing!

## 2025 District Pricing

District IEP Count	Price for DALs	Price for DALs+*	Price for MHS Education Portfolio*
1–100 IEPs	\$2,075	\$350	\$85
101–250 IEPs	\$4,450	\$725	\$140
251–400 IEPs	\$6,800	\$1,175	\$220
401+ IEPs	\$16.75 / IEP	\$2.90 / IEP	\$0.30 / IEP

\*Only available with the purchase of DALCOMPLETE.

# "Check out"

each step on your library card!

## LIBRARY CARD

☐

Confirm number of IEPs most recently reported by your district to the Office of Special Education and Rehabilitative Services (OSERS).

☐

Add up the benefits of DALs+.

☐

Request your quote from your sales representative.

☐

Return Purchase Order and Start-up Form to sales representative.

☐

Watch for your welcome email for account administrators, which includes account setup training.

☐

Account administrators: Share links to training with users.

☐

District users: View your welcome email and set up username and password (for each user).

☐

View set-up and platform training videos included in your welcome emails and located on the Support Tab in Q-interactive and in the Resource Library within Q-global.

☐

Consult with your Technology/Data Security team to evaluate the suitability of Single Sign-on integration for your district.

# Unlimited digital administration delivers flexibility when you may need it most!

*Extraordinary times call for extraordinary solutions.*

The Digital Assessment Library provides key benefits that are useful now and may be needed again in the future.

## Easy cleaning

- Hardware devices can be easily sanitized
- Fewer items to clean after sessions

## Social distancing for face-to-face assessments

- Q-global digital stimulus books can be shared on a second monitor placed a safe distance away from the examiner and used for test administration
- iPad devices using Q-interactive can easily connect at a safe social distance and through personal protective accommodations like plexiglass barriers

## Remote administration

- Many Q-global tests can be administered via remote administration using the examinee's own device
- Digital stimulus books found on Q-global can be used during a telepractice assessment
- Q-interactive can be used, with some accommodations, during a telepractice assessment

For additional information regarding telepractice, please visit our [website](#) for guidance documents AND consult with your professional organizations such as NASP and ASHA.

# Assessments for every referral

One major benefit of DALs is having all the tests you need at your fingertips to help you answer any referral question that comes your way. The library offers assessments in almost every area of eligibility and includes a variety of relevant tests for all ages.

Assess for the following [specific learning disabilities](#):

- Basic Reading Skills
- Reading Fluency
- Reading Comprehension
- Math Problem Solving
- Math Calculations
- Written Expression
- Oral Expression
- Listening Comprehension

The assessments included in DALs also allow you to evaluate for [many areas of Special Education eligibility](#) including autism, emotional disturbance, intellectual disability, other health impaired (ADHD), orthopedic impairment, speech or language impairment, traumatic brain injury, and developmental delay. It's one easy way to meet all your referral needs.
